... with the Clear DECENTRALIZED PHONE!

NO ads. NO viruses. NO malware. NO trackers. NO unwanted content.
Your battery life triples!

Clear OS Mobile

- Clear OS Mobile puts individuals in control over their digital identity, privacy and security.
- Clear OS Mobile starts by protecting your digital identity. Clear OS then gives you the power to use the typical Android apps you love while blocking anything you choose including hacks, viruses, spyware, phishing/SMSishing, malware, ads, cookies, trackers, any app, any website, robocalls, behavior profiling and backdoors.

ClearWEB

BIG tech companies track *every* step you take online, watching your location and bombarding you with ads based on your activities. ClearWEB blocks unwanted content and the trackers that follow you online. You can have the freedom to surf the web *on your terms*.
